MANE RAMCHANDRA MURLIDHAR

Baramati, dist pune 413133

Objective

Skilled in developing clean, user-friendly web applications using the MERN stack. Experienced in managing databases with MongoDB, building RESTful APIs with Express, and creating responsive front-end interfaces using React, HTML, and Tailwind CSS. Passionate about learning new technologies and focused on building efficient, user-centered solutions.

Skills

- -Front-End
React.js, Javascript, HTML, CSS & JS, tailwind css, Bootstrap
- Back-End
Node.js, Express.js, MongoDB
- other
Git, Microsoft Excel

Projects

Job portal

Built a job portal using MongoDB, Express.js, React, and Node.js. Added features like user login, logout, job search, filter and favorites for users. Also added admin panel for managing job listings and users. Used Redux for managing data and Mongoose for database handling. Focused on secure and smooth user experience.
